# Announcement **Important**

The Dominion Government has banned the importation of Russian Coal into Canada

HAVE SUFFICIENT ON HAND TO FILL ALL ORDERS UNTIL SPRING.

All who have used Russian coal are loud in the praise of its excellence. It is unfortunate that there is a cloud over the country from which this coal comes.

5 However, we have been anticipating the prohibition of the importation of Russian coal for some time, and for several months we have been conducting an extensive research into the possibilities and analysis of higher grades of American Anthracite that have been seiling at a premium—something better than the average run of American Anthracite smething to displace Russial coal that would be the nearest approach to it in high quality— high in heat value, low in ash.

WE HAVE FOUND IT!

A Vastly Superior American Anthracite Coal! To Sell at Only Fifty Cents More Than Ordinary Anthracite This coal has never been sold before in this part of the country.

IT'S A SUPER COAL

We have arranged for the exclusive sale of this SUPER-COAL in Bolleville. First shipments will arrive in a few weeks.

We will of Course Also Continue to Handle Scotch Anthracite Than Which There is No Better Coal in the World.

"IF IT'S A GOOD SHOW YOU WANT-VISIT THE CAPITOL!"

IF IT'S A GOOD MEAL —QUICK SERVICE — MODERATE CHARGES—

LONDON

LUNCH

CAPITOL THEATRE MANAGER

C. GILPIN-HOLMES

The Capitol Theatre, after two weeks silence, will open its doors again to the public tomorrow night at 6.45 p.m. With the first glimpse, surprise and amazement will be registered at the delightful change brought about during the perand of re-modelling. The basic theme of the interior is remin iscent of Indian artistry, the colour scheme being cream base with red blocks and imitation sunbursts. The addition of a with red blocks and imitation sunbursts. The addition of a built-in foyer has created a vast improvement, and is in itself a beautiful construction. Lighting effects and new drapes together with most ituarious carpeting tone so hirmanically that the effect is altogether too wonderful for words.

The installation of Northern Electric Sound ensures per-fect recording so that ear strain is absolutely eliminated. The screen 13 ft. 6 lin. x 18 ft. is set well back on the state so that pairons occupying front seats will experience no eye strain or uncomfortable craning of the neck.

Mesers, Moorehead and Filman, Ltd., ownins and operating theatres in London, Brampton, Orillia and St. Thomas have entered Belleville with the right spirt-the spirt of in-vitation and not agressiveness. This is a purely Ganadian enterprise and Belleville is to have an opportunity of seeing more British films in the future. We understand that the booking for next week is an all-British production, and, of course, Evelyn Leye, playing in "One Heavenly Night" Comparison, io one of England's finest stage and screen stars.

The most important factor is the price one has to pay to The most important factor is the price one has to pay to be entertained and in this respect the pockots of the Belleville people have been carefully considered. In the evenings 356 will be the reneral adult admission with a charge of 16 cents for children. The matiness she ar reduction to 256 for adults and 10 cents for children. This we think will find unanimous

C. Glipin-Holmes, resident manager of the Capitol Theatre, came to Belleville from Brampton, Ont., where he was in change of the Capitol Theatre there. His entry into Cancio was only as far back as 1923, coming from Cambridge England. Prior to three and a half years in the University Oly in charge of the Tiroll Theatre, Mr. Holmes was charges of affaires at 3.4 Annes-on-Sea with the Blackpool Tower Com-

H's chief hobby is music, having graduated from the London Gollege of Music in England. A member of the Black pool Gice and Macrigal Society and the choir of the Man-chester Cathedral.

Mr. Holmes would have us mention how grateful he is to Mr. Georie Forhan, for his kindness, and good wishes, and states that, although competitors, nothing but a friendly and co-operative spirit must exist.

The

# PROMPT ACTION SAVED GIRL IN SWIMMING TANK

St. Thomas, March 3 —A ten-year old girl, Ida Coleman of St. Thomas was taken from old girl, Ida Coleman of St. Themse was taken from the swimming tank at Aims College at noon, Saturday, after she had been seemerged in the water to seem

shink change as place processors, as no shink had been acchanged in the water for come microsite. The girl was a monoher of the Y.W. O.A. switzming class, with Miss Wrisan Wooley, the Instructures in charge. Mis Wooley and that he riched the plut under the water, but thought in the plut under the water, but thought in the plut of the result. This intrinctives soon plut her could be the result. This intrinctives soon possess a strange, however, and dided in a later the gift, tringing her to the ide of the tank.

With the aid of Mist Mary Parer

with the aid of Miss Mary Parsons, artificial reprintion was applied and the child brought around successfully, only the clerome of the instructurenes on exchanged to V; criticals requirated prevented a fital-

# nothing like it! Y

Rice Krispies actually crackle out loud in milk or cream. Children love them.

And such flavor! The taste of toasted rice. A differ-ent treat for breakfast. Won-derful for the kiddies' lunch. deriul for the kiddles' lunch. So wholesome and easy to digest. Rice Krispies are digest. Rice Krispies are handy to use in recipes. Take the place of nutments. At grocers, Made by Kellogg in London, Ontario.

YOU will find that everyone applauds your taste and respects your judgment, if you drive the 1931 Pontiac. The 1931 Pontiac is a larger car, a fine car, although it sells at lower prices. Observe, a four showrooms, Pontiac's distinctive V-shaped radiator. See the sweep and flow of its long, modern lines and the luxury of its sepacious Fisher Bodies.

There are over 40 points of rubber insulation throughout the chassis to blanket engine noise and vibration, and to absorb road shocks. Such notable Pontiac features as Lovejoy shock absorbers, cross-flow radiator and big brakes are retained.

Let us show you the new Pontiac and allow you to drive it. Let us explain GMAC, General Motors' own time payment plan and the generous provisions of the General Motors Owner Service Policy.

needs like any other machine: Crystal-clear Nujol will clear away the dulling poisons that hold you back, and flood health's sun-shine into your life. Not a drug-not a medicine—can't hurt you. Costs but a few cents. Makes you feel like a million dollars!

Hard to believe that you can be

# ALWAYS SOMEWHERE a Druggist waits to serve you

Emergency knows no time. Health must be maintained at all costs. Long hours in the dispensary or d the drug counter is part of the day's work of the druggist. Long efter other stores have closed their doors for the day the drug store is open to meet necessity and emergency. The retail drug store's service to its community is as important as the fire, police and public health departments.

Here, too, the lesser desires are met when no other merchant has accommodation to offer.

The major service to the health of the community is supplemented in the drug store by many minor services to the neighborhood, not of necessity but for your convenience.

Always---somewhere---a qualified experienced druggist is ready to

# **Important**

We therefore will discontinue the handling of this coal after the present season. WE HAVE SUFFICIENT ON HAND TO FILL ALL ORDERS UNTIL SPRING.

All who have used Russian coal are loud in the praise of its excellence. It is unfortunate that there is a cloud over the country from which this coal comes,

However, we have been anticipating the prohibition of the importation of Russian coal for some time, and for several months we have been conducting an extensive research into the possibilities and analysis of higher grades of American Anthracite that have been selling at a premium—something better than the average run of American Anthracite—something to displace Russian coal that would be the nearest approach to it in high quality— -high in heat value, low in ash.

# nnouncement

WE HAVE FOUND IT!

A Vastly Superior American Anthracite Coal! To Sell at Only Fifty Cents More Than Ordinary Anthracite This coal has never been sold before in this part of the country.

### IT'S A SUPER COAL

We have arranged for the exclusive sale of this SUPER-COAL in Believille.

We will of Course Also Continue to Handle Scotch Anthracite Than Which There is No Better Coal in the World. Further announcement later.

# Official WARNING

The Law Says:

The Highway Traffic Act declares that during March and April on roads, both paved and unpaved, outside cities and towns: Solid tired trucks and trailers shall be limited to holf a load. Pneumatic tired trucks and trailers, with a carrying caps exceeding three tons, shall be limited to half a load.

Horse drawn vehicles with a carrying espacity exceeding one ton shall be limited to 250 lbs. per inch in wight of tire.

Heavy Penalties:

The penalty for overloading during March and April is a fine, imprisonment or both. Licenses also may be suspended. High-way Traffic Officers have been directed to be especially vigilant in apprehending all who disobey.

Speed limits all the year round are 15 miles an hour for solid tired vehicles and 20 miles an hour for pneumatic tired vehicles of more than 8 tons gross.

Ontario's Millions Invested in Good Roads Must be Protected. We ask the co-operation of every truck

## Only the Finest Flour could pass these Tests ROM GRAIN TO SAC WAKER FLOUR MUST STANDARDS

EVEN wheat which grades the highest is not always good enough for Quaker Flour! Refore it can be milled, every bushel must meet the tests of our chemists for its actual food value.

chemists for its actual food value.

Then through every process of milling, Quaker Flour is hourly tested. Sample loaves are baked daily in our own kitchens. If the flour does not conform to the rigid Quaker standard it can not bear the Quaker name.

You can make delicious bread with Quaker Flour in half the time and with half the effort. No kneading or setting the sponge. Just follow instructions given in our booklet "The Quaker Method of Easy Bread Baking."

# The Unseen Value That Makes The New Ford a Fine Car

Large number of ball and roller bearings reduces friction and wear and gives greater reliability and economy.

YOU step into the new Ford, press your foot on the starter and away you go. Smoothly, evenly, it carries you along your way for many thousands of miles each year. You have no fear of mechanical trouble and you accept its good performance as a matter of course. You have confidence that it will serve you faithfully and well under all conditions.

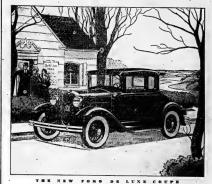

Though you many never lift the hood of your car, it is interesting to know some of the reasons for the reliability of the Ford and its commony of operation and upkeep. The extensive use of ball and roller bearings is an example of value far above

These ball and roller bearings are used at more than twenty places in the new Ford. By allowing moving parts to run smoothly and freely, they reduce friction and wear to a minimum. To you as a car owner, this means smooth, quiet mechanical operation, more speed and power, increased gasoline mileage, greater durability and

The function of the ball and roller bearings of the new Ford is similar to that of the jewels in a watch. Since they are placed at every point in the chassis where they are needed to

longer life.

The De Laze Conpe is a striking example of the rich finish of the new Ford cars. Attractive colors give added charm to its grace of line and contour. Upholstered in luxurious mobale, Here, at a low price, is everything you want or need in a motor car — distinctive beauty, safety, comfort, speed, por case of control, reliability, sconomy and long life. Ask your Ford dealer for a demonstration.

prevent friction, the new Ford may be called a full-jeweled car, in the same sense that a fine watch is full-jeweled.

As important as the number of ball and roller bearings in the new Ford is their adequate size, and the manner in which each type has been

used where their ball-

shaped construction

will give the greatest

smoothness and effi-

ciency. Roller bearings

are used wherever a

selected for the work it has to do Ball bearings are

larger bearing surface is needed to carry a heavier load. The deciding factor as to which type shall be used is what is best for the car and for Ford owners.

Steering is made easier and safer in the new Ford because of the roller bearings in the front wheels, at the spindle bolts and in the steering mechanism. There are ball bearings on the clutch and ball and roller bearings in the transmission. A roller bearing on the drive shaft at the universal joint provides perfect alignment of those vital parts and

on the rear axle pinion and differential are made unnecessary by the close limits to which those roller bearings are held. The ball bearing on the generator armature gives greater reliability to that important part of the electrical system. The value of the large number of ball

The changing West

FIFTY years ago the buffalo roamed the prairies: the Railway pushed through unnumbered obstacles. "Graigellaubie," was the code word, meaning, "Grayd fast!" The last spike was driven. The line was completed. The pioneër settler, ever an optimist, subdued the Prairie with the ancient hand tools of immemorial ancestors. Then came the gradual adoption of improved implements, powered by long teams of sinewy horses. (Then modern power, and the whole character of the West changed. Wheat farming became a mechanized industry, with all the forces of science at its command. (Out of the throes of this economic revolution is being born again a New West, with its prodigious resources of oil, minerals, transition.

and water powers, undreamed of when the Canadian Pacific first kaid its rails across the continent. Today, as then, the Railway endeavours to keep ahead in providing for the needs of the constantly changing and growing West, and is instituted by the same faith in the future.

From the moment the prospective colonist becomes interested in Canada until the time of his final establishment on the land, he has, in the Canadian Pacific, the unique advantage of the service of one dissinctive organization. Whether on sea or land, or no master in what part of Canada he may be, he may always easily get in tooch with the railway's colonization service, which helps him towayd necess and independence in the land of his adoption. Assistance is given to farmers to induce greater production, to find new markets and to experiment in one crops and methods.

CANADIAN PACIFIC

The John Lewis Company

Phone 2260,

YOU would consider it an affront to your intelligence if some one were to try to, sell you a horse, "unsight-unseen." You would laugh such a proposition to scorn.

Yet every day you are asked to buy merchandise on identically the same terms canned goods with unknown labels — cosmetics of uncertain quality — a radio by an unknown manufacturer—shoes, clothing and housefurnishings about whose merit you know nothing.

And you are asked to buy this "unsight-unseen" type of merchandise in place of the nationally advertised brands that you know are dependable I

Advertised brands have been approved by the most critical of investigators—the buying public. You know exactly what you will get when you buy advertised goods, not some unproved substitute but the specified article—as represented. You know that the maker of advertised brands has confidence in them, else he would not invest money calling your attention to them day after day, month after month. In buying advertised brands, you get your money's worth. Buying "unsight-unseen" ir liable to prove dear at any price.

Adveriisers recognize that the most effective means of keeping the Canadian public informed of the merits of advertised brands is the daily newspaper, because practically every Canadian fomily reads a daily newspaper every day.

## Tip Top Tailors Introduce for Spring 1931

## The Tip Top Style Committee

... passing upon the latest New York and London fashions in men's spring clothes

For the convenience of those contoners of the contoners o

Absolutely correct style and perfect fitting clothes are guaranteed every patron of Tip Top Tailors—first, by the selection of authentic styles in New York and London by our own Style Committee—and secondly by the twenty-one personal measurements to which every Tip Top suit and coat is skilfully tailored.

Furthermore, we have taken advantage of market conditions to bring our already fine tailoring to the highest quality standard, not only in the exclusive all-wool fabrics, but in the important unseen parts as well.

In short, fine custom tailoring, cut individually to your measure, from woollens made to our own specifications in famous British mills, beautifully trimmed and absolutely guaranteed in every way at only 21, our one and only price.

Inspect the new styles and fabrics at your .nearest Tip Top store or agency tomorrow—there is no obligation to buy.

## When Economy is a Prime Consideration

satisfying choice. New low prices make Chevrolet's sixcylinder smoothness and 50-horzepower performance available to new thousands of motor car buyers. And due to its low cost for gasoline and oil, its long life and freedom from repairs-the Chevrolet Six will serve you economically for tens of thousands of miles. Thorough mechanical excellence and dependability account for the new Chevrolet's low cost-per-mile. And, similarly, Fisher craftsmen have built extra strength and durability

NATURALLY, economy is an important thing to consider in deciding what car the family should buy. And from this standpoint, the Chevrolet Six is a very practical and

into the bodies. The new Fisher Bodies are roomier and more beautiful than ever . . . and more sturdily constructed. Beneath their smart lines and fine appointments is a foundation of hardwood-and-steel-permanent assurance of safety, comfort and long life.

Considering its low first cost, inexpensive upkeep and rugged stamina, we sincerely believe that the new Chevrolet Six will ' serve you through the years at less cost than any other car

Chevrolet's policy has always been one of service to the public . . . The GMAC plan of deferred payments offers the lowest financing charges available . . . and the General Motors Owner Service Policy pledges lasting satisfaction.

## a grand total of flavor, pep and health

TASTE THEM! Only Kellogg's Pep Bran Flakes have that matchless flavor—that good-to-the-last-spoonful

the nourishment of the whole grain.

Plus extra bran for extra health. Just enough added fiber to be mildly laxative.

Flavor, pep and health — all combined. That's why Kellogg's Pep Bran Flakes are better bran flakes. Great for breakfast. Fine for lunch. A special treat for children at every meal. Serve with fruits or honey — with milk or cream. Look for the red-and-green package at your gro-cer's. Made by Kellogg in London, Ontario.

IMPORTANT—Kellogg's Pop Bran Flakes are mildly lanative.

BRAN—sauther Kellogg product—is all bran and guttanteed to
both temporary and recurring construction.

## The Ford Car is serving Belleville Doubly .

Through its ever-widening use by people in all walks of life, the we Ford is serving a constantly greater portion of the public. People in all parts of Canada show a growing appreciation of the substantial worth of this car. Today, the new Ford leads every other car in Canada by a large and increasing margin.

In the city of Belleville, as well as in rural sections and western farmland, the Ford is bringing safe, comfortable and reliable transportation to many people, at low cost. The value of the service it gives is increased by the fine quality materials and skilled workmanship which go into its construction.

Forty different kinds of steel are used in the chassis, for example, because experience has shown that forty will assure better and longer service than a smaller number at a lower cost.

It is with pride, then, that the people of Belleville can look to the new Ford for value. For Belleville industry is contributing to the mechanical excellence of this car. Last year alone, Ford Motor Company of Canada, Limited, spent \$51,000 in Belleville for materials and supplies used in the manufacture of this car.

Thus the Ford is serving Belleville doubly. Part of the pur-chase price of every Ford sold in Canada, and in many other parts of the British Empire, is used to buy materials in this local-ity, and to pay the wages of local workmen. As sales of the new Ford increase, Belleville benefits.

The new Ford is a car you can be proud to own and proud to use, and owning it, there is the additional satisfaction that comes of loyalty to local enterprise.

Come in and let us demonstrate the oustending features of new Ford.

Now a Mutual Company

The directors announce that by joint action taken today by poncy-holders and shareholders, in accordance with the provisions of the Company's Special Act—just fifty years after the founding of the Company—the North American Life Assurance Company becomes a purely Mutual organization.

All of the Company's assets, exceeding forty-five million dollars, are now held for the policyholders. The whole of the accumulated surplus, as well as all future surplus earned, belongs exclusively to the holders of participating policies.

The policyholders now own and control the Company-there being no capital stock or shareholders. They will elect their own directors, and such directors will be solely responsible to them.

It is gratifying that Mutualization has been accomplished at a period in the Company's history when its financial position is impregnable—its surplus on 31st December, 1930, amounting to over eight million dollars.

It is equally gratifying that the redemption of the capital has been effected, and Mutualization brought about, without in any way disturbing the surplus already apportioned to participating policyholders. The accumulated surplus earnings from the non-participating section alone have been practically sufficient to redeem the entire capital.

Among the founders and early directors of the Company were such honoured leaders in Canadian life as Alexander Mackenzie, Sir William honoured leaders in Canadian lite as Alexander Franchisco, and Meredith, Sir Oliver Mowat and Edward Blake, and the step now taken in Mutualizing the Company marks the fulfillment of their intentions, as expressed in the original charter, granted by the Dominion Government.

Moreover, the carrying out of Mutualization gives effect to the Company's declared principle and belief that the interests of the politybolders are paramount.

Directorse spile of a

### THE MEMORIES

Old trails, old ships, old faces, Old streets along old quays— Down in the hearts mute places Old shelves are filled with these.

Not one is lost or scattered, And each is sleeping there— Old loves that have not mattered, Old friends no longer fair.

Old vows, old hopes, old taverns, Old rooms along old halls— Down in the hearts mute caverns They're heaped against the walls

If death is the last obeying,
A final and thrice-barred door,
Why are these ancients staying?
What are they waiting for?
—Beft Cooksley

## The Finest Performing Six Hudson Ever Built

## Competes with the Lowest in price Challenges the Finest in Quality

Essex challenges the performance of any six, regardless of price! It introduces fine-car style and Super-Six smoothness to the lowest price field. It is strongly built to assure lasting satisfaction and utmost dependability. It matches the economy of cars most noted for low operating cost. It gives you Rare Riding Comfort for the first time in a car of its amazing low price.

All seats are wide and deep-with lots of room for comfort while riding. Head-room and leg-room are greater, doors are wider, bodies are insulated against weather and noise. All controls are easy to reach and operate. Your nearest Hudson-Essex dealer is ready to give you a demonstration. Go test its challenging performance and Rare Riding Comfort yourself!

THE LIBRARY **CORNER** 

This Powerful **NEW 1931** 

STEWART-WARNER Radio

Within this beautiful cabinet, is the same powerful, full-sized, 8-tube chassis used in higher priced Stewart-Warner models. And it has the same amazing capacity for clear and life-like reproduction.

This is a brand new, 1931 radio set. It incor-porates every feature essential to modern radio reception at its best. It is rugged—requires no "servicing." Yet it is uphelievably low priced.

# STEWART-WARNER

"A GREAT RADIO BACKED BY A GREAT NAME"

Do you want to hear something positively refroshing in the way of life-like, mearthful-like radio reproduction?

Then go to your nearest Stewart-Warner days and hear your favorite station, as brought in over this splendid new, moderately used and moderately prince Stewart-Warner Easles et al.

This set is built in Canada for Canadians, by highly skilled Canadian workmen. It presents one of the most remarkable values ever offered.

The WHEN BETTER AUTOMOBILES ARE BUILT-McLAUGHLIN-BUICK WILL BUILD THEM icro-Mesh

> and TORQUE TUBE in ALL models of the

EFFECTIVE immediately, McLaughlin-Buick offers Silent Syncro-Mesh Transmission and Torque Tube Drive in its low-priced, Series 3-50 Straight Eights. Now, choose even the lovest-priced McLaughlin-Buick Straight Eight and you obtain Syncro-Mesh Transmission, Torque Tube Drive, Valve-in-Head Straight Eight Engine and Insulated Body by Fisher — exactly as in McLaughlin-Buick's finest and costliest cur.

With Syncro-Mesh, novice and skilled driver alike shift gears without clashing—at all times and at all driving speeds. Finger-tip pressure moves the gear lever from low-to-second, from second-to-high, and back again as quickly and smoothly as you would flick an electric light on and off. There is no need to pause in neutral or "feel in" the gears. On the straightaway — in heavy traffic — up hill or down hill — you can shift easily and silently without slackening your car speed.

Much of the strain, vibration and steering-wheel tremor you experience in driving ordinary motor cars is due to the method by which the engine power is transmitted. McLaughlin-Buick's Torque Tube Drive transmits the power direct-relieving the springs of all driving strain . . . increasing the smoothness of the car . . . and adding materially to steering case.

A 23-year record of giving greater value for the money explains why McLaughlin-Buick seins 58 out of 100 sales of eights in its price class"while 14 other makers share the remaining 42. If you have looked forward to McLaughlin-Buick ownership-inspect, and drive, a McLaughlin-Buick Series 3-30 Straight Eight. At \$1290 (f.o.b. factory, Oshawa, taxes extra) -it is a Straight Eight almost every motorist can own!

Ask about the GMAC plan of deferred payments - and the General Motors Owner Service Policy.

SERIES . . . 4 PRICE RANGES . . . ALL WITH SYNCRO-MESH TRANSMISSION AND TORQUE TUBE DRIVE

DOROTHY DIX writes on

Dressing to Charm."

Colour Charm in Your Home Not only in dresses, blouses, scarfs, but in your HOME, fresh, lovely colour adds charm and glamour to you. Keep pretty curtains, cushions, table linens, colourful as new with Lux. Here, too, Lux is invaluable in guard-ing colour charm. Donoray Drx.

A Man's Letter

HEREWITH pass on Harry's hint to Marcia C and every other girl who reads this.

who reads this.

I think Harry reflects most men's idea about the way they like a girl to dress. Men love fresh, electful COLOUR, and the girl who attracts is the one whose freeks and blouses and sweaters are always charmingly colourful.

Here are two simple rules I'd follow, girls, if I were you:

"But how can we wear delicate colours all the time, yet keep them fresh and lovely?" practical girls often say: "Frequent washing ruins colours."

No-frequent washing doesn't ruin colours. It's using ordinary soap—even ordinary "good" soap—that fades colours and even if it does not always

Grave and Gay

A GOOD MEMORY DIES
By Edgar A. Guest
"Well," said St. Peter at the gate,
"Your name, sir?" He replied,
"I'm Henry Wise, just seventy-eight
In years the day I died,
And I knew Shakespeare through
And always took his words for true.

"I sat with Plato many a night; His language I could quote, And much that Spencer used to write I rattled off by rote. I had a marvelous memory Crammed full of ancient poetry."

"That's not enough! St. Peter said,
"You lived to memorize.
With borrowed stuff you filled your head,
But what thought Henry Wise?
Forget the books upon the shelf
And tell me what you thought yourself.

CUSS WORDS might have been excused monday morning when pedestrian coming morning which is the control of the co

THOROUGHBREDS have both beauty and pace . . . and certainly the 1931 Fontiac Six qualifies on these counts!

This fine car has the slock grace of a blooded horse . . . indeed it has a beauty and huxury much greater than its low price implies.

Large, spacious Fisher Bodies are tastefully upholstered in rich fabrics. They are carefully insulated against cold and noise. Rubber insulation at 43 chassis points smothers noise and vibration, and eliminates many bothersome points of lubrication. As an instance of added value, note also that the 1931 Pontinc has 5 wire wheels as standard equipment on all regular models without extra cost. You will also find Lowejoy hydraulic shock absorbers on all four wheels.

Then too, you will discover the 1931 Pontiac Six easy and comfortable to drive. It is a real thoroughbed, easy to mange, eager to obey. The famous 60 horsepower motor has speed for acceleration and speed for steady going . . . and either kind comes easily, quietly and economically.

### THE DREAMER

THE DREAMER
In truth, scant meaning lies for me
In this, the world I feel, smell, see:
Unreal the orchard's blooms unfold,
Or if the crowds through city's maze
Flow swiftly down tumultuous ways
To knock upon my house of life,
They enter not, with peace or strife.

As dweller on a busy street Who hears about his hasting feet. The hum of traitie and the roar Of beings tide against his door, Yet in his quiet room lives on. Apart from map, remote, withdrawn, So life itself less vital acema for creams. To me that bright domain of dreams.

So life theel test vital seems
To me that bright domain of dreams.

Aline Michaelia.

mirror was a thumb print.

In the finger print records of a nearby city was found a print that matched it. It said as plainly as a letter, "The man

They found the chickens in a nnei, beneath the culprit's arn. They put him behind the ars. He made the mistake of aving a record with a finger

### Germ-Laden Prints

This is told to remind you that ou leave finger prints on every-ing you touch. And those ager prints are usually germ

laden. You pick up the germs from things others have touched, from handshakes, from pets, etc. You touch may convey them to foods—to a piece of toast you butter, to accolie, to a chocoliste. A few of those germs may breed to millions in the mouth. From there they go to attack vital creams.

there they go to attack vital organs.

Life Extension Institute lists of the second of

How to be Safe
Lifebury Soap is used by
illions, the world over, to
mbat three dangers. It contoa germicide, its lather kills

often, and always before meals. They teach their children the habit. Thus Lifebuoy, in every country, is saving a vast amount of sickness and infection.

A Delightful Way A Delightful Way

Lifebuoy is a luxurious soap, based on two palm oils. No better soap was over made, no greater beautifier. There is no perfume, but the lather is gentle and abundant. And a refreshing scent of safety, which lingers for a moment, tells you how it protects.

hand.

Lifebuoy kept on the wash basin and bath enables everyone at home to benefit by it. Your dealer has Lifebuoy readyfor you.

### A NECESSARY JOB

while the city has expended a considerable amount of money on the clearing of great heardist have resulted, work for the unemployed, and the opening up of the roads, it is realized this have resulted, work for the unemployed, and the opening up of the roads, it is realized this have resulted, work for the unemployed, and the opening up of the roads. It is realized that this is one of the needs of the present day mode of travel and transportation. No clyy and town can leave mow distinct. No clay and the present day mode of the season when a mild appell approach. On Wednesdy there was self if the snow which had packed down quantities. Snow which had packed down cannot be applied to the snow which had packed down of the streets difficult enough had movement of cars took place with some difficulty. Had been left on Front and Bridge Streets and when on the died streets, these thoroughfares would have been impassable in a few hours.

The age has passed when roads can be allowed to fill up with now. Clearing of cipal or a government task. That fact is appreciated on the highways. While the city has expended a consid

PASSED I

 $\mathbf{Y}^{ extsf{OU}}$  would consider it an affront to your intelligence if some one were to try to sell you a horse, "unsight-unseen." You would laugh such a proposition to scom.

Yet every day you are asked to buy merchandise on identically the same terms—canned goods with unknown labels — cosmetics of uncertain quality — a radio by an unknown manufacturer—shoes, clothing and housefurnishings about whose merit ye down onthing.

Jou are asked to buy this "unsight-unseen" type of merchandise in place of the nationally advertised brands that you know are dependable 1

Advertised brands have been approved by the most critical of investigators—the buying public. You know exactly what you will get when you buy advertised goods, not some unproved substitute but the specified article—as represented. You know that the maker of advertised brands has confidence in them, else he would not invest money calling your attention to them day after day, month after month. In buying advertised brands, you get your money's worth. Buying "unsight-unseen" is liable to prove dear at any price.

Advertisers recognize that the most effective means of keeping the Canadian public informed of the merits of advertised brands is the daily newspaper, because practically every Canadian family reads a daily newspaper every day.

ne O. S. D. spent over Sunday ne home of the former's mother,

# Costs Only One Cent a Meal!

### ... yet the most nourishing breakfast that money can buy

A STEAMING dish of Quick Quaker Oats costs only one cent...less than your morning paper. Its healthful nourishment sustains you all through the hours of the morning, during which you use 70% of the day's energy.

Every package marked "chinaware" contains a lovely piece of English ware, as good as you can buy ... with the pretty colours and new irregular borders, co pleasing to women.

Every package is brimful of the best flavoured, quickest cooking oats you've ever tasted. Different from ordinary oats; better, because of the exclusive Quaker milling process. Quick Quaker is ready \$½ minutes after the water boils.

Quick Quaker should not be confused with ordinary "quick" oats. Only Quaker Oats can give you the incomparable Quaker flavour and rich mutition. In packages only, either with or without china...ner: in bulk. All packages contain coupons with which you can get valuable perspiner.

CANADIAN TREE SEED FOR BRITAD

A Pledge to Tip Top Customers that has kept us awake at night, to "Make Good!"

Three little words-"STUL MORE QUALITY"-hold the secret of our customers' faith in us. For twenty years, season after season, we have been making good this pledge by bringing to you the utmost in correct style, fine fabrics and custom tailoring at a reasonable price.

Frankly, our pledge has been keeping us awake nights, for in 1931, of all years, we were most desirous of giving you your rioney's worth. So we strained every nerve - utilized every resource-took advantage of every market condition-to keep faith with our promise of "STILL MORE QUALITY." That we have succeeded even beyond our own dreams is indicated by the wonderful reception which has been accorded the new styles and the new fabrics in our 42 stores.

To the past year we have not only increased the quality of our woollons and broadened the selection of correct I and on and New York styles, but we have improved tail ring, trimmings, linings and the unseen interior construction. . . . In short, every detail of a Tip Top guit or topcoat embodies "STILL MORE QUALITY" than ever

Upon those three little words, plus a standardized price of \$24 for any style, fabric or color, has been built the greatest one-price tailcring organization in the world.

We invite you to view the new styles and fabrics at any Tip Top store or agency tomorrow.

MUFFINS and WAFFLES

Use the tested recipes on the package for delicious mulins. And wailles, too... Make them on the table, without fuss or trouble and serve steaming bot...

WATCH their eyes light up when you surprise your men-folk with Aunt Jemima buckwheat cakes. See how quickly the stacks of "buckwheats" disappear!

There's a lang to buckwheats that men like. It satisfies their vigorous appetites. With sausage or crisp bacon—what a meal . . . for breakfast, lunch or supper.

Aun' Jemima buckwheats are easy to prepare. Just stir-the ready-mixed flour with equal quantities of milk or water and cook a few minutes on a moderate fire. Such paneakes! ... golden, fluffy-light, and so tender and delicious.

prepared

**BUCKWHEAT FLOUR** 

If you prefer real southern pancakes, use Aunt jemima Pancake Flour. It's the recipe of Aunt Jemima, most famous cook of slave days... ready mixed for your convenience.

kind it is to your face. You know that every Gillette stroke is sleek, clean and

sweet-that every user gets genuine shaving

satisfaction. And you know, too, that

wherever you go-the Gilfettes you

buy are the same smooth-shaving, high

quality blades you get in your neighborhood store.

In the light of these facts, it is not surprising that in every corner of the globe the vast

majority of men ask for Gillettes when buying blades.

GILLETTE has piled up overwhelming majorities in every nation, for shaving faction knows no party, creed or color.

Twenty-nine years of untiring research - of nce to the highest manufacturing ideals -of constant improvement, have made the Gillette blade a world-wide favorite. Nothing at uncompromising quality

is that people everywhere have experienced better shaving results with this

hood.

It baby will become depends very dip upon that service of love even more irtant than the tiny garmens so care-chosen. During the weeks before arrives the expectant mother will make note that she will be able to feed beby

hersely.

So much depends upon this I In babyhood are laid the foundations of future health and happiness. No substitute is equal to maternal milk for giving baby a sound start in life. And no substitute so surely safeguards a child against nutritional diseases, such as rickets.

Determine

Doctors, nurses and mothers daily testify to the remarkable value of "Ovaltine" in promoting adequate lactation

When this delicious beverage is taken before the birth the milk is sufficient in quality. Even when only taken after the birth the use of "Ovaline" his quickly effected gradiest change in the quality and quantity of the milk. "Ovaline" his moreover, maintains the mother's strength while narring success a quick return to avonal health.

JAS. A. COKERS

Mother sensed that Frank had a cold as soon as he spoke to her over Long Distance. He had avoided writing her about his illness, for he knew she would worry. Now that he was nearly well again, he decided to telephone her, for he knew she would be worrying because he had not

That call gave Frank an idea. Why not telephone mother each week instead of writing? The voice-visit was so much pleasanter for both of them than a letter could be. And Long Distance was so quick . . . he got his connection while he held the line. The cost of the call surprised him - just 25 cents - after 8.30 p.m. And their voices were just 2s clear as on a local call. Organization is Wholly

The Finest Performing Six Hudson Ever Builty

#### Competes with the Lowest in price Challenges the Finest in Quality

Easex challenges the performance of any six, regardless of price! It introduces fine-car style and Super-Six amouthness to the lowest price field. It is strongly built to assure lasting satisfaction and utmost de-pendability. It matches the economy of cars most noted for low operating cost. It gives you Rare Riding Comfort for the first time in a car of its amazing low price.

All seats are wide and deep-with lots of room for comfort while riding. Head-room and leg-room are greater, doors are wider, bodies are insulated against weather and noise. All controls are easy to reach and operate. Your nearest Hudson-Essex dealer is ready to give you a demonstration. Go test its challenging performance and Rare Riding Comfort yourself!

# The Tip Top Style Committee

## ... passing upon the latest New York and London fashions in men's spring clothes

Absolutely correct style and perfect fitting clothes are guaranteed every patron of Tip. Top Tailors-first, by the selection of authentic styles in New York and London by, our own Style Committee-and secondly by the twenty-one personal measurements to which every Tip Top suit and coat is skilfully

Furthermore, we have taken advantage of market conditions to bring our already fine tailoring to the highest quality standard,

not only in the exclusive all-wool fabrics, but in the important unseen parts as well.

In short, fine custom tailoring, cut individually to your measure, from woollens made to our own specifications in famous British mills, beautifully trimmed and absolutely guaranteed in every way . . . at only \$24, our one and only price.

Inspect the new styles and fabrics at your nearest Tip Top store or agency tomorrowthere is no obligation to buy.

# TIPTOP TAILO

298 Front Street - CLARKE DICKENS, Manager

PERSONAL TAILORS TO THE WELL DRESSED CANADIAN MAN.

THE 1931 Pontiac has the fineness, the style and the comfort that women want. It is also a car that women are pleased to drive because it handles easily, has a reserve of power that gets through difficult going, and a notable stamina that assures trouble-free operation for thousands of miles.

Yet with all this the 1931 Pontiac Set, at its low prices, is as easy to buy as it is economical to drive. It is a big car with spacious Fisher Bodies that are restful and luxurious. Over 40 points of rubber insulation absorb noise and vibration. There is an air silencer to choke carburetor hissing.

As an instance of its value, consider that 5 wire wheels are standard equipment on all regular models at no extra cost.

In addition four Lovejoy shock absorbers are

I C E S standard equipment on all models.

NEW LOW PRICES

Try the 1931 Pontiac Six today! We shall be pleased to demonstrate at your convenience.
You can purchase the 1931 Pontiac through the
low-rate GMAC time-payment plan . . . and
your continued satisfaction is pledged by the

In this contest, thousands of letters were received, and the general excellence was such as to make the work of the judges very difficult. However, after careful consideration, the judges in the popular \$250.00 Turret pipe tobacco contest have awarded cash prizes as listed below. This \$250.00 is given to Ontario smokers only. Each of the Western provinces receive a similar amount; making a grand total in eash prizes, for the five provinces, of \$1,250.00.

#### SIDELIGHTS

Grave and Gay

Although it happened long ago
The storys told today
Of how St. Patrick killed the snakes
In Ireland far away.

Near mid-night on the eighth of March Was Patrick born, it's said; And many were the arguments To which this hour led.

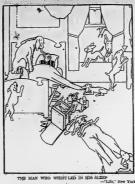

Some claimed his birthday was the eighth But other folks did state: "Since after twelve was Patrick born— The night must be the date."

For many years they did dispute Until a learned man Called all the elders to the town And told them of his plan.

"No child can have, lest he be twins, But one birthday," he said; "So let's combine the eight and nine And have one day instead."

And so the seventeenth of March Was put aside each year To honor good Saint Patrick's deed With pomp and gladsome cheer.

The reaching of the large part of the special part of the special

# The Miracle CHASSIS

# ROGERS Radio

WE DIDN'T name it the "Miracle" chassis. The latest Rogers chassis earned that name by

This chassis is used in the Rogers models 617 and 620. It is the smaller of the two Rogers chassis, but in performance it does a big job.

It brings in local reception smoothly and pleasingly. It brings in distant stations that most other radios do not get at all.

You can buy the Rogers model illustrated for only \$139. Make a small down payment, if you wish, and pay the balance on easy monthly terms.

This is an extraordinary radio. We make broad This is an extraordinary tauto. We make broad claims for it because experience has shown us it will not disappoint you. And it's the famous genuine Rogers, made in Canada.

TUNE IN-SUNDAY EVENINGS 9.30 p.m. E.S.T. Recert-Maintile Broadcast from 20 Canadian stations.

THE UNEMPLOYED

MELTING SNOW
Across this 'pen space where frayed
and lattered
Lies Winter's drabbled shawl in
disarray
Discarded hastily as though it mattered
Nobling at all since Winter could
not sity. BRINGING

Some one walks daintily in cool
Weating a warf of filmy yellow
light lampled with point some one who
defull backdes deftly handles
With coaxing funger-tips the ragged white
Frinces and brushing all of them
from sight
Lights one by one the dandelion
candles.

—Crace Strickler Dawson

INTO FERTILE FIELDS FOR SPRING

Goods Counters."

The world seeks most of its frory supply in Africa, because the tusks of African elebanats are lavger and the ivory is of better quality. Until the time of Peter the Great 1620-1725, Russia was almost entirely Asiatic in character.

The Strength of Beef

# YOU CAN'T OUT-TRADE A TRADER

Motorists are learning to be frankly skeptical of too high an allowance on Used Cars

SOME DAY SOON you will need a new automobile and one of the first questions you will ask your dealer will be-"How much will you allow me on the old car?"

It is natural that you should want to get as much as possible, yet you know the old car isn't as good as it once was. It has gone ter, twenty, perhaps thirty thousand miles. Years of operation have depreciated its value. The best part of its useful life is behind it.

HAVE YOU EVER stopped to consider why one dealer will offer you \$250 for it-another \$300 or even \$350? It's the very same car, yet here is a difference of \$50 to \$100 in the estimates of experienced automobile men. Has one dealer made a mistake? Can you flatter your-

self on having fooled him as to the condition of the car and made a good trade? No—there is little chance of that. It's the dealer's business to know car values. When a dealer buys a used car from you, he does not

buy it to keep. He takes it off your hands as an accommodation to you. He would be delighted if he never had to take a used car in trade.

IF HE PAYS you more than your used car is worth, then one of two things must happen. He must re-sell it to some one else at too high a price (which is not fair or just) or he must make up the difference on the new car. The dealer cannot afford to take a loss. The money must come from somewhere. Whether you know it or not, you pay the bill.

Before you enter the showroom, the big trade dealer knows you are going to be looking for a large allowance and that you will not buy his particular car unless you get it. So he is all set to give it to you. There is nothing casual or accidental about it. The dealer follows a plan that has been earefully worked out for him in advance. He will gladly give you \$50, \$75 or even \$100 more in trade allowance because he makes just that much more on the new ear. The dealer's profit in selling has been purposely increased to make that large allowance possible. You gain nothing. The dealer loses nothing. You receive the extra allowance in one hand. You pay it right back with the other.

THE FORD DEALER does not need such methods to sell the Ford car. He is an authorized representative of the Ford Motor Company of Canada, Limited, and he does business on a fair, straightforward basis. He does not seck to take advantage of the public's known weakness for a "bargain."

The Ford charges for selling, financing and accessories are not increased to provide for a large ased-car allowance. Value is built into the car. There is no water in the price.

The lower first cost of the Ford, the lower cost of operation, up-keep and service, and the added value of the shatterless glass windshield, four Hondaille DOUBLE-ACTING hydraulic shock absorbers, fully euclosed fourwheel brakes, more than twenty ball and roller bearings. and Rustless Steel amount to far more than any seeming difference in trade allowance.

# CRISP and CRUNCHY

with the delicious flavour and wholesome food value of whole wheat

Muffets ... crisp, golden-brown, enticing ... the most delicious and nutritious whole wheat biscuit you've ever tasted!

A crunchy ribbon of cooked whole wheat... wound round and round... and baked to a tempting crisp-ness. Delicious served from the package with cream and sugar... or hear a Muffer, pour hot milk over it, and then, if you prefer, add cream.

Muffets contain all the protein, carbohydrates, roughage and health-giving minerals of the entire wheat bery...plus the precious sunshine vitamin D. With milk they bring you every element of a perfectly balanced food.

Children need the sunshine viramin D. It helps sssimilate the lime in milk, so necessary for strong teeth and bones. Adults require it to restore wastage in these important parts of the body.

On every package of Muffers is our guarantee: "If you don't agree that Muffers are the best whole wheat biscuits you have ever used, we will gladly remit you the cost of this package."

You'll be repaid in health and vigour, if you eat Muffers regularly. Order a box of these delicious whole wheat biscuits today.

# More Powerful and always smooth

THE strength of the new Chevrolet chassis has a counterpart in the ragged power of its six-cylinder motor. The extra horsepower obtained by the proven valve-in-head engine design results in a sure, steady flow of power-sheer pulling ability that you can depend on to carry you surely through sand and mud, or up the steepest grade.

And nothing less than this 50-horsepower, six-cylinder car gives you such handling case in traffic. When you drive the new Chevrolet Six through congested streets you will be sure to notice how easily the car throttles down in high gear to a mere walking -then picks up spiritedly to top speed.

Quietness and smoothness at all driving speeds are equally remarkable features of Chevrolet's engine design. It takes six cylinders to give the restful comfort and freedom from vibration you will be quick to appreciate in this new Six.

Once you try the Chevrolet Six, we are sure you will never be satisfied with less. At its new low prices, this Six is a value that deserves your first consideration.

> Chevrolet's policy has always been one of service to the public . . . The GMAC plan of deferred payments offers the lowest financing charges available . . . and the General Motors Owner Service Policy pledges lasting satisfaction.

## Can you afford to lose?

Or are you counting only on a gain when you invest your money? Would a loss cause you serious embarrassment? Would it cripple you and yours finan-cially? Ask yourself these questions before you venture.

For no matter how rosy the picture... no matter how tempt-ing the promise of profit... the possibility of loss must be taken into account.

The hindsight of thousands has been better than their foresight. Profit by their experience.

If you can venture only on gain, consider the protection afforded by a savings bank account.

The gain is sure and safe.

S A V I N G S FROM 170 TO 1800

Your first glance at the new Willys Six will take in the car's graceful lines — low, sweeping and clean-cut — and its pleasing color harmony. In every detail, the car correctly interprets the latest fashion tendencies.

latest fashion tendences.

In the new Willys Six the front seat adjusts to your length and its back takes the angle that fits you. The wider tread (58½-inches) makes much roomier seats and hodies. There are longer, more flexible springs and four hydraulie shock absorbers of improved type. The double-drop frame cuts down side away for greater security when raking content.

taking corners. The big powerful engine is smooth in operation and economical in consumption of gasoline and oil. It can drive? Omlies an bour.—50 is second gear. It is rubber-insulated against vibration. The big foor-wheel brakes are the Doo-Servo type, cable and conduit control, for better cualitation, less podal pressure and to avoid the brake rattles common to less modern systems.

Only a company of long experience, of large resources and with enormous facilities, could produce such outstanding cars as the new Willys Sixes, Eights and Knights, and could market them at such low prices, which represent a sarket of \$170 to \$300 over last year's similar models. Arrange for a demonstration

THETY years ago the buffalo roamed the prairies: the Railway pushed hthrough unnumbered obstacles. "Craigellachie," was the code word, meaning, "Stand fast!" The last spike was driven. The line was completed.

The pioneer settler, ever an optimist, subdued the Prairie with the ancient hand tools of immemorial ancestors. Then came the gradual adoption of improved implements, powered by long teams of sinewy horses. (Then modern power, and the whole character of the West changed. Wheat fatming became a mechanized industry, with all the forces of science at its command. (Quit of the throes of this economic revolution is being born again a New West, with its prodigious resources of oil, minerals, irrigation

and water powers, undreamed of when the Canadian Pacific first laid its rails across the continent. Today, as then, the Railway endeavours to keep ahead in providing for the needs of the constantly changing and growing West, and is inspired by the same faith in the future.

From the moment the prospective colonist becomes interested in Canada until the time of his final establishment on the land, he has, in the Canadian Pacific, the unique advantage of the service of one distinctive organization. Whether on sea or land, or no matter in what part of Canada he may be, he may always easily get in touch with the railway's colonization service, which helps him toward success and independence in the land of his adoption. Assistance is given to farmers to induce greater production, to find now markets and to experiment in oney crops and method.

MICHAEL D. LANT-OTTAN

### \$20.000 a year . . \$2,000 a year Hands equally lovely!

Now wives who do all their own work have hands lovely as women with maids . . . thanks to Lux

Almost anywhere they may meet . . .

The woman of wealth—with maids at her call—the young wife who is homemaker—cook—dishwasher, too. Notice this amazing TRUE fact—

You can't tell, from their hands, which is which?

Everywhere wives are achieving this tri-umph . . . doing all the many tasks of a home . . . yet keeping their HANDS so EXQUISITE, so white—you'd think they never touched housework.

Women discovered the secret themselves. Washing fine things in Lux, they noticed how nice their hands looked afterward. Then began using Lux for dishes. Then for cleaning. In fact, whenever their hands touched soop and water!

Almost AT ONCE their hands showed

Smooth white hands for less than 1c a day LUX for dishes me the difference . . . became lovelier SMOOTH, WHITE, like a GIRL'S! So wonderful is Lux for the hands that

beauty experts—with all their experience
—say, "We can't distinguish between the -say, "We can't distinguish between the hands of a woman with maids and the hands of the housewife who uses Lux."

Here is the Secret Why is Lux so fine for the hands? The reason is this. Many scaps contain harmful alkali that dries up the oils of the skin, the oils that nature placed there to keep the skin amooth and white.

Lux does not dry these delicate oils. Those sparkling Lux suds in your dishpan are soothing and very bland.

Why not try Lux for YOUR dish costs less than Ic a day!

### UNUSUAL SPRING

### AFTER MIDNIGHT

AFTER MIDNIGHT

A magistrate of an Ontario city referring to men found after midnight on the
streets started comment up and down the
as a protection against arrest was of course
a joke. Naturally a man in full dress after
midnight is going home from a function and
is not a lawbracker for bandits do not dress

up.
The police have power to question any one walking about at midnight and hold him unless he gives a good account of himself. In a city like Belleville the police know everyone practically and have little troube with the after-night crowd.

### PLAGIARISM

PLAGIANSM
Literacy folk have been having rather a warm time of it hately. In New York a suit has been heard brought by Miss Lewys Miss Lewys and the hard brown of the hard brown of the hard brown of the hard of "Strange Interinde" by O'NO Friday night Theodore Dreies slapped the cheek of the famous Sinclair Lewis, the Noed price winner of the year in the Noed price winner of the year in the hard brown of the hard brown. Plagitariam again!

O'NO Friday wife of Lewis wife's literary work. Plagitariam again!

O'NO Friday of the hard brown of the hard brown of the hard brown of the hard brown. Flagitariam again!

O'NO Friday of the hard brown of the hard b

work. Plagiatism again!

And here I sit with wealth untold.

Though days plagiatism was not looked upon as serious. Great figures used kinthe days plagiatism was not looked upon as serious. Great figures used kinpangs because nother had used ideas of his.

Perhaps that may explain the great outburst

of literary work of word interest which has I would had not wealth untold!

Old gold, gold, gold!

Would I had not wealth untold!

Would I had not wealth untold!

The property of the total gold holdings of

e (for me at least) in prose.

Gold, gold, gold, gold

Hers I sit with wealth untold;

Gold in hand and gold in store.

Vaults and coffers flowing o'er;

Gold in coin and gold in bar,

Gold from near and gold from far,

Gold from peace and gained in w.

Gold, gold, gold, gold

Here I sit with wealth untold.

Our shores the Tyrian merchants sought, Cargoes of purple silks they bought, And fabrics rare with gens inwrought. We would not buy, we only sold Our corn and oil and wine for gold, Gold, gold, gold, gold, gold; So here I sit with wealth untold.

They bought our goods, we have their

ney bought our goods, we have the gold,
But though I sit with wealth untold,
I am happy, for behold—
My people suffer sore distress.
Hunger and want and wretchedness,
And languish in their tilleness.

Their hands no longer train the vine. Their hands no longer train the vine. They cannot sell their corn and wine. The merchants buy from us no way. For we have all their golden store, Their gold, gold, gold, gold, gold. And here I sit with wealth untold.

-ADVANCED REFRIGERATION

Quiet?

## You'd never know you had a Frigidaire in the house!

Frigidaire does its work of keeping things cold almost as quiedly as Jack Frost freezes a pood!

So repetily amooth and silent is the famous Frigidaire unitatatooly agant of a whinger amootance in operation...

like as sleeping child. You'd never know you had one in the boast!"

the house!

Ye, for all its assonishing vilence, the Frigidaire unit is far from sleepy—irita, indeed, a storehouse of apre-power, more than unficient to meet every possible freezing demand of modern refrigeration.

So don't be decired by the surprising absence of sound in your Frigidaire. ... there is surplus power back of Frigidaire silence!

seless and less frequent motor operation is one of the many very real advancage dranced Refrigeration. There are many others. It is such advantages that he re in the forefront of its field. We invite you to come into our showroom and less

Determined to give our patrons and all other motorists of this community the very utmost in the quality at the low-est price quoted on any tire anywhere, we have joined the biggest movement in the tire industry today.

With hundreds of other independent tire dealers the country over, we have joined hands to buy the entire factory output of Selberling Tires.

These are genuine husky Seiberling-standard quality. Look at these prices for these world-famous tires. Highest Prices Paid for Used Tires. Ask us for Particulars. You will be Surprised Our Vulcanizing Plant is the most Modern and Complete Available

# The Europa made the run from Southampton to New York in 6 days, 18 hours 30 minutes— the world's record for ocean travel. The RECORD SPEAKS For ITSELF

WHETHER it be trans-Watlantic service or cigarette-making, only the best attain records; which accounts for the Turret cigarettes' record and proves they are right in quality

After all, nothing can replace good, honest tobacce; grown and ripened right out in the field under nature's own sunlight— nothing artificial about that— and the high quality is "inbred".

Mild and Fragrant

Arcial Mapping in Canada

Arcial Mapping in Canada During the year 1920, 54:100 square miles were photographed by the Royal Canadian Air Force in connection with the mapping of Canada by the mapping of Canada by the Interior. Of like area, 21:200 square miles were photographed for year-relical, and 2200 square miles for collipse pictures. With the exception collipse pictures. With the exception continues of the Dominion and the North word. Territories are represented in this work for the year.

Two Trees to a He

"How do you get him to chew his food?"

"I give him Shredded heat and it's so crisp he has to chew it—the more he chews it the better he likes it and the more nutriment he gets out of it. Many children bolt down their food without chewing — that means imperfect diges-tion, poor teeth and unhealthy gums. Shredded Wheat with milk makes a perfect food for grow-ing children, and it's perfectly deligious with bananas or stewed fruit."

# Majestic

NOTHER important advantage for Majestic Radio buyers! Rogers A-C Radio A Tubes will hereafter be standard equipment on the new Superheterodyne models of the Majestic Radio.

Decide now that your radio will be a Majestic, "Mighty Monarch of the Air." There is no extra charge for the Rogersi tubes with which it is equipped!

This means further economy for Majestic Radio owners, it means comparative freedom from radio troubles, finer performance. No A-C radio tubes produced have as long life as Rogers. They outperform all others.

HEAR Luigi Romanelli and his uday 9.30 p.m. E.S.T. Rogers-Majestic or a chain of 20 Canadian stations.

Tip Top Tailors for twenty years have been honestly tailor-ing clothes to the measure of Canadian men. For twenty years they have striven to make good a pledge of STILL MORE QUALITY each season. What firm then can be more safely trusted in times like these than the firm that has won the confi-dence of over two and a half million men?

This year we have not only increased the quality of our woollens by taking advantage of existing market conditions, but we have broadcood the selection of correct London and New York styles and improved tailoring, trimmings, linings and unseen in-erior construction. In short—Tip Top custom tailored clothes today represent more quality for today represent more quality for the money at \$24 than any clothes that any tailor can offer you anywhere in Canada.

A Tip Top suit, topcoat or dress suit can be purchased any-where in Canada through our 550 stores and agencies. See the new styles and fabrics at the nearest Tsp.Top shop tomorrow.

### \* Better for children

CHILDREN'S eyes sparkle with delight when they see Kellogg's PEP Bran Flakes. There's something in the peppy, snappy flavor of Kellogg's PEP Bran Flakes that makes them first choice with the young folks, every time,

### Better for grown-ups

Kellogg's PEP Bran Flakes are as healthful as they are good. They contain, just enough bran to be mildly laxative. Their rich wholewhet nourinhment makes these practically a perfect food with milk or cream.

Enjoy them often. Serve them to the children-after school, at supper, as a bedtime snack. In the red-and-green package. Made by Kellogg in London, Ontario.

THRICE BLEST

How wise is he who can recall
The best of life alone,
Who from his days can banish all
Of evil he has known!

How strong is he who makes no pau For weak regrets or fears; But puts his faith in being's laws And builds for future years!

How brave is he who forges on,
Serene, untouched by doubt,
Who fights when every chance

gone
And hope has flickered out!

Thrice-blest is he who knows-no.ill,
Who toils and shrinks from naught;
Life's forces bend before his will,
He rules by valiant thought!
—Aline Michaelis

### Ford the prospers, benefit Belleville

The Ford Motor Company of Canada, Limited, looks upon itself as charged with making an automable that will most the requirements of many thousands of motorists throughout the Dominion—and providing it at a low price. That is its duty and its obligation to the pub-

How well it has succeeded is shown by public appreciation of this car's substantial worth. In many sections, between fifty per cent. and seventy percent. of all cars sold are Model A Fords.

All Ford cars for the Brilish Empire, other than Great Britain and Telatand, are made by the Ford Motor Company of Canada, Limited Canadians have be right to feel froud of the case sold throughout this country. It is made almost entirely in Canada, of Canadian materials, and by Canadian werkmen.

In the Border Oities alone, purchases by the Ford Motor Company of Canada, Limited, average over \$7,000,000 yearly for materials and services, not including wages.

In Bolleville, last year, Ford purchases of materials and supplies, used in the manufacture of the Ford car, totaled \$81,077.14. Thus he people of Polivellic can feel a more than casual interest in the success of the Ford. Their loyalty to local enterprise is strengthened by the detire to benefit Balleville industry and workman in furthering sales of the new Ford.

With larger sales of this car comes increased revenue to the city industries of Believille.

Everywhere, you hear onthusiastic praise of the alert, capable performance, safety, comfort, reliability and iong iffe which the new Ford is giving under the many different conditions of service it meets. Come in and swe its handsome bodies and new, beautiful colors. Let us give you a demonstration.

# DOROTHY DIX

Why do I say this? Well, we women are made so that pretty clothes give us CONFIDENCE in ourselves. This applies to under-things, too, as every girl knows. When one property of the control of the control ingerie, you feel very exquisite. And when you yourself feel charming, others ind you so. There's something control the control of th

Now, girls, I'm NOT advising ex-ravagance! What I do want you to do summed up in two simple rules:

Buy the prettiest lingerie you can, and
 Keep it colour-fresh, new looking, as long as you wear it.

Daintiness demands fro-Jaintiness demands frequent washing, of course, but this NEEDN'T FADE your things or wear them out. Ordinary "good" scaps often do take away some of the colour, especially delicate pinks and other pastel

if it's safe in water . it's safe in LUX!

and looks thin, often "seasty," as we used to say.

But just take a bowlful of Lar suds and dip your pretty things in and out—stockings as well as undiez—and they'll come out as therming in colour and as soft and lowly as though they'd come straight from the stock I Lux is expectally made to keep colours charming, just like new,

MOREOVER, not only can dainty, colourful lingerie give you confidence of charm—but your very SURROUND-INGS can help!

Pretty curtains, slip covers, cushions, colourful table linens, all form part of the magic spell, when they are kept ever lovely with Lux. DOBOTHT DIX

ADVANCED. REFRIGERATION

There's ample room for bowls and bottles, plates and pans on Frigidaire's generous shelves!

The food storage spaces of Prigidaire are planned to make every cubic inch count!

Shelves are placed and spaced to afford the maximum t of room and the m

It is absolutely amazing how much food can be stored in the comparatively compact cabinets of some of the more modestly sized Frigidates: 11

modestry sized frigidates: 11

Any Frigidatire will hold several days' supply of food for
the family it servers—which, of course, means fewer trips
to market, and in addition, makes it possible to buy perlahable foods at quantity prices at a considerable saving :11

The generous roominess of Frigidaire storage spaces is a very real advantage in more ways than one!

corage of surplus food is one of the outstanding advantages of Frigidaire.

a. There are many others. It is convenient features such as these that here a forefront of its field. We invite you to come in and learn all about them.

YOU would consider it an affront to your intelligence if some one were to try to sell you a horse, "unsight-unseen." You would laugh such a proposition to scom.

Yet every day you are asked to buy merchandise an identically the same terms—canned goods with unknown labels—cosmetics of uncertain quality—a radio by an unknown manufacturer—shoes, clothing and housefurnishings about whose merit, you know nothing.

...,rd you are asked to buy this "unsight-unseen" type of merchandise in place of the nationally advertised brands that you *know* are dependable I

Advertised brands have been approved by the most critical of investigators—the buying public. You know exactly what you will get when you buy advertised goods, not some unproved substitute but the specified article—as represented. You know that the maker of advertised brands has confidence in them, else he would not invest money calling your attention to them day after day, month after month. In buying advertised brands, you get your money's worth. Buying "unsight-unseen" is liable to prove deer at any price.

Advertisers recognize that the most effective means of keeping the Camadian public informed of the merits of advertised brands is the Baily news paper, because practically overy Canadian family reads a daily newspaper every day.
